

**Five Tool Group, Inc.** provides a wide-ranging array of transportation services to the special event industry, in the United States and internationally:

- ✔ Design, planning and execution of comprehensive transportation plans for exhibitions, conventions, congresses, symposia, ceremonies and other major events.
- ✔ Creation and implementation of transportation solutions for high-profile special event clients, involving the use of charter buses, limousines/car services, rental cars and vehicle access/site parking management.
- ✔ Efficient and cost effective contract management of transportation suppliers (e.g., bus companies, limousine companies, rental car firms) in the delivery of complex, mission-critical, milestone-based projects.
- ✔ Coordination of the efforts of local transit authorities, municipal transport planners and international, federal, state and local law enforcement agencies in the delivery of special event transportation services.
- ✔ Consultation in assessing the readiness of existing event transportation plans, the development of bid documents for securing new events, the creation and management of formal event project management plans, and the management of relationships with major national and international event organizations (including the news media).
